FEATURES.

BEVERLY HILLS, Cal., March 23.—It may be old to you, but it's new out here:

Small Prussian town turns out for traveling circus. Ferocious lion escapes; villagers flee madly. Sinewy stranger grapples, single-handed, with ravening brute; twists its jaws, hammers its nose, boots it back into cage.

Entire community starts jubilation—flags flying, bands playing, burgomaster puts on his high hat, special train arranged for rushing the hero to Berlin to be decorated by Herr Hitler as reincarnation of ancient Nordic demigods, typifying spirit of old Germanic stocks—all that sort of thing.

Suddenly hideous discovery is made that stranger's background is not Teutonic, the family name being Ginsberg. Celebration called off; flags furled, bands sneak home, special train cancelled, burgomaster has apoplexy.

And next day the local paper apoplexy.

And next day the local paper comes out with scathing article under the headline: "Jew attacks defenseless lion." "Special Squad."

REPRESENTATIVES HIT REFUSAL OF SESSION

Theo Coleman, of Lowndes Imputes Fear of Opponents' Advance to Governor.

VALDOSTA, Ga., March 23.—Representative Theo Coleman, of Lowndes county, today made public a letter he has addressed to Governor Tallmadge criticizing the Governor for failing to call a special session of the general assembly, imputing to the Governor a fear that his political opponents may advance themselves if a session is held.

advance themselves if a session is held.

After citing the reasons the Governor has given for refusing to call the session, Representative Coleman asserts that "I cannot reconcile myself to the belief that your refusal to do so (call a session) is actuated by anything other than your shameful desire to establish in this state a permanent dictatorial form of government with yourself as the unholy leader."

Coleman's Letter.

'The Lowndes legislator's letter to the Governor follows:

Hon. Eugene Talmadge,
State Capitol,
Atlanta, Ga.
Dear Governor:
I am in receipt of your communication of March 18, 1936, which purports to explain your reasons for re-

ports to explain your reasons for re-fusing to call an extra session of the general assembly for the purpose of enacting an appropriation law, after an appeal had been made to you for such a session by a majority of the state sensions.

such a session by a majority of the state senators.

I note in the first paragraph that you recognize the right of the senators to petition the Governor, and that all such petitions are given your earnest consideration. This is commendable, even though your consideration of this petition by the direct representatives of the people has not

to operate the state government with-out an appropriation bill, which thereby completely excludes and ig-nores the voice of the people you govern.

Never Such an Emergency.

nores the voice of the people you govern.

Your reasons for not calling an extra session, are, "politics permeates the air, and it would be unwise to call an extra session at this time, and that extra sessions are called when an emergency arises that did not exist at the time of the regular session, and that no new emergency has arisen." These reasons are so ridiculous I can hardly believe they came from the lips of a normal man, certainly not from the lips of the chief executive of a state. Sir, I implore you not to allow your own selfish interest and your fear of the political strength of a few men to prevent you from doing your duty as the Governor of Georgia. Can't you see that in suppressing the political ambition of a few men you are stripping and robbing the people of their inalienable right to govern themselves? Remember, it is the people who will suffer if an appropriation bill is not passed immediately, and not those few individuals who you say, "Are trying to further their own interests."

Never Such an Emergency.

Never Such an Emergency. You deny that an emergency has arisen. The people of Georgia were never faced with such an emergency. It did not exist at the time of the regular session of 1935, as the general assembly at the 1933 session passed an appropriation bill for the years, 1934 and 1935. We were in session in the year of 1935, therefore the emergency did not erise until January 1, 1936.

The judiciary has ruled that you cannot legally operate the state government without a duly enacted appropriation bill, the members of the general assembly have agreed to serve at their own expense in passing such a law, and have agreed further not to bring impeachment proceedings

FATHER WINS BABIES

MOTHER GAVE AWAY REDWOOD CITY, Cal., March 23.

(P)—Two babies given away recently in San Francisco park were put in temporary care of their father, Edward Marion Jones, of San Bruno, in superior court today.

Jones filed suit for divorce from his 22-year-old wife, Linda, charging she deserted him and he was unable to find her until he read of her "notorious acts" in giving the children away.

Informed circles believed Il Duce promised to support Hungary's demands for treaty revision and territorial adjustment at the proposed economic and disarmament conference among European powers this summer. However, Mussolini insisted that any treaty revisions sought by Hungary be within the framework of the League covenant. This was regarded significantly in view of Mussolini's previous denouncement of the League for application of sanctions against Italy to halt the Italo-Ethiopian war. It added weight to reports that Il Duce has come to terms with Great Britain and France to end the war in return for discontinuance of sanctions.

COUNTY LOAN PARLEY

WITH BANKS SET TODAY Banking officials and Fulton county commissioners expect today to reach an agreement whereby Fulton's annual operating loan can be arranged despite the lack of a state appropriation bill, it was said yesterday following a conference.

The commissioners and the bankers are seeking to find a way by which the county can borrow approximately \$2,000,000 on tax levies with which to operate the county until revenues come in later in the year as taxes are paid.

are paid.

It was reported that the banks, fearful of the legality of loans without a state appropriation act, will arrange to furnish the county the necessary money, probably by advancing it in small sums to be carried by the banks as "casual deficiencies."

Details of the plan will be worked out today by officials and attorneys, if possible.

WALADIA, Ethiopia, March 23.—
At my feet is a ravine, 300 feet deep, full of short thickets of tamarisk and oleander. At the bottom of that gorge, the figure of a man appears about the size of a crawling fly. The opposite slope looks like the wall of eome giant prehistoric building; jagged chunks of red-brown volcanic frock, each the size of a house, piled crazily on top of each other, as if the architect had finished his work in a desperate hurry. Half the cone-shaped hills around here were once active volcanos.

THE OKEFENOKEE'S VALUE

Announcement that the federal government has secured options on the entire Okefenokee swamp area brings nearer the time when this unique tract, with its rare flora and fauna, will become a nationally-owned wild-life sanctuary and its perpetuation in its pristine condition assured.

Working under the resolution sponsored by Senator George in which \$6,000,000 is set aside for the purchase of the Okefenokee and two similar tracts, the Bureau of Biogolical Survey of the Agricultural Department has for many months been engaged in securing the sound here were once active volcanos.

He sound of the firing comes over to us with curious delay. Those bursts of machine gun fire make you the hawsers. The Ethiopians do not return the fire. They have no ammunition to waste. They snipe.

Snipers are spread out at 20, 30, 50 feet intervals. They lie on the ground, the nozzle of their rifle pointed through a crag in the jagged boulders, and the purchase of the order of the purchase of

In order to dislodge the small groups of warriors from those hills the Italians use mountain artillery. How they get the guns up is inconceivable. They must take them to pieces and reassemble them afterwards. I do not see how it can be done otherwise. NOAH? WASHINGTON, March 23 .- Suspicions have existed that How Deep there is a supernatural alliance between the New Dealers and the Master of all. There are some economists who say the only reason the farm program increased prices as much as it did was because the drouth came along at the right time. Likewise, there are New Dealers who will now confess sotto voce that the slaying of the NRA by the supreme court before the campaign started was nothing less than an act of providence.

This conversational speculation lacked official confirmation until the other day when the White House announced that President Roosevelt had 'anticipated" the disasters two weeks before the rain fell. He set aside \$18,411,633 and no cents on February 29 for the relief of the floods which started after March 15.

This, apparently, is the greatest tip anyone ever got on a flood since

SKEPTICISM Official weather prophets are known to be a godless were scooped completely on the flood. They are still trying to maintain, no doubt jealously, that the deluge was due to an unforeseeable quirk of nature. Their story is that the snows thawed and were carried off satisfactorily, but left the ground saturated.

Thus, when unexpected rains fell, the ground declined to absorb any further moisture, so all the rain slid off at once into the rivers.

UNCERTAINTY Political unbelievers, who are always trying to disparage, are trying it again. This time, they say that if Mr. Roosevelt knew so much about the flood, why did he arrange to leave on his vacation fishing trip the very night it reached its deadly height?

His Thursday night departure was scheduled, for example, on the Southern railway. Switches along the way were spiked, bridges guarded, special train assembled. Departure then was delayed 24 hours and the route switched to the Atlantic Coast Line. This road then spiked its switches, etc., etc. Rather uselessly as it turned out, because on Friday.

Mr. Roosevelt delayed another 24 hours and changed back to the Southern. The Southern had just reinstituted its canceled arrangements when, ern. The Southern had just reinstituted its canceled arrangements when, ern. The Southern had just reinstituted its canceled arrangements when, ern. The Southern had just reinstituted its canceled arrangements when, ern. The Southern had just reinstituted its canceled arrangements when, ern. The Southern had just reinstituted its canceled arrangements when, ern.

This manifest uncertainty engendered a belief around Washington that there was something more tangible than a supernatural alliance behind the flood going democratic, and there was.

licity advisers became excited about the President vacationing while the flood was on. There was really not much that Mr. Roosevelt could do here except to have his picture taken inspecting the Potomac, which he did. Most routine details were cleared up that first day, but, by that time, the flood was worse and the publicity ad-

viser insisted on a second and third delay.

During this time it was discovered that, among the routine allotments made for WPA, Mr. Roosevelt had designated \$18,411,633 for flood work on February 29. Then, everyone thought that the vast amount of ice and snow which had accumulated during the severe winter would cause a flood when it melted within a few days. It didn't.

But when the unexpected flood came along more than two weeks later, the White House publicity man had an inspirational flash of genius. Acts of providence or of anyone else may provide excellent material in a campaign year. The adviser made the claim and stuck to it, although he has been subjected to heavy Joshing by some of his closest friends,

They needed that additional majority to see that the investigation does not inquisitive about WPA in a campaign year.

Since his job required little mental effort, he spent the hours thinking of the injustice of fate and feeling sorry for himself.

When he could bear his hard lot no longer, he went to the king's

"Look here, King," said he, "I'm not getting a square deal. I work for a rich guy who has nothing to do but sit in an office or ride around in a fine car wearing good clothes, and I am paid just enough to keep soul and body together. Me and the other servants do all of his work, and he couldn't get along without us, yet he gets eighty dollars to ou one. It isn't right, and I demand justice." "O. Habit Spasm.

I keep blinking my eyes so that strangers stare at me—I think it is called tic. Physician found no fault of vision. Can you suggest how I may overcome this? . . . (K. D.)

Answer—Such tic or habit spasm usually begins as a purposeful movement, which eventually becomes habit itual. Carefully conducted course of exercises in expression, inhibition, etc., under supervision of expert, will correct the habit. Just as a fillip, it is characteristic of idiots that they constantly repeat movements without purpose or words without sense.

Emergency Water Disinfection.

To your knowledge, are halazone tablets to be relied upon for sterilizing water? Would they, for example, kill the spores of amebic dysentery germs? . . (P. A. R.)

Answer—Not to sterilize, but only to disinfect water in an emergency. I'd rely on such disinfection of water if I had to drink unboiled water of questionable purity. Or I'd rely on the addition of one or two drops of good old tincture of iodin to a quart of the water, let it stand 20 minutes, and then drink my fill in assurance.

These methods are suitable only for emergencies and not at all for regular use. Boiling is the best way to disinfect polluted water if it must be used for drinking purposes.

Referendum Unconstitutional, Reuben Garland To Maintain.

Charging that the repeal referendum held last year was not only unconstitutional but that the prohibition law in The treaty—which the three powcrs have approved—is to be sent to
the League of Nations offices at Geneva, where other nations may join
in the provisions later if they desire.

Japan has indicated interest in the
document. Italy declined flatly to
consider signing while sanctions continue.

Georgia had already been flatly repealed by the legislature, Reuben A.
Garland, representing Morris W. Dorsey, prepared yesterday for the hearing Friday in Fulton superior court
where another contest of the liquor
law will be started.

document. Italy declined flatly to consider signing while sanctions continue.

The treaty limits battleships to a maximum of 35,000 tons, sets a minimum of 10-inch guns for the main battleship of any type, and divides ships into two classifications: Those of between 17,500 tons and 35,000 tons down to 100 tons.

An important feature of the new treaty, effective January 1, 1937, is the general provision allowing any power to build as many ships of any type as it wishes. The United States qualified this provision, however, by an "escape" clause which abrogates the treaty if the British construct more than 70 cruisers.

The powers also agree to a free exchange of information on building programs.

FOR HEALTH POST

Charles Gridley Nominated To Be Solicitor of Labor Department.

WASHINGTON, March 23 .- (AP)

WASHINGTON, March 23.—(P)—President Roosevelt today nominated Thomas Parran, of New York, to be surgeon general of the United States Public Health Service.

The term would be for four years. Parran was designated to succeed Hugh S. Cummings, resigned.

Charles O. Gridley, of Illinois, was nominated to be solicitor of the Labor Department.

The nomination of Joseph J. Ferguson to be postmaster at New Orleans was sent to the senate by the President, and Harvey F. Johnson, of Mississippi, was nominated to be engineer-in-chief in the coast guard.

The senate judiciary committee recommended to the senate confirmation of Lamar Hardy, former Mississippi lawyer, as United States attorney for the southern district of New York. Objections to Hardy's confirmation had been raised by the New York City Bar Association.

Final rites for J. Louis Aenchbacker, prominent businessman and fraternal leader, who died Saturday, were held at 11:30 o'clock yesterday morning at the Spring Hill chapel of H. M. Patterson & Son.

Dr. Louie D. Newton officiated and burial was in West View cemetery.

Mr. Aenchbacker was a native of Atlanta and a lifelong resident. He was formerly associated with the industrial Loan & Savings Company as vice president.

With increasing years, one's skin becomes stale, discolored and wrinkled, and loses its freshness, due to sun, wind, air and dirt from within, developing a coarser from within, developing a coarser texture, large pores, blackheads, pimples, freekles and other surface spots. The only way these beautymarring defects can be satisfactorily overcome, is with a basic skin treatment, such as Golden Peacock Bleach Creme.

Golden Peacock Bleach Creme is not a "cover-up" cosmetic, but a basic, penetrating, skin treatment (the formula of one of the most able Cosmetic Chemists in the United States) which actually removes that coarse, scrubby outer skin, and begins where nature leaves off to form a new skin foundation; finer, softer, clearer, lighter and free of blackheads, pimples and spots—and does it quickly. Use Golden Peacock Bleach Creme to get the texture of your skin right before applying cosmetic, then you will have a fresh looking complexion, requiring fewer cosmetics. Golden Peacock Bleach Creme is in such demand by ladies in all walks of life that it may be had wherever cosmetics are sold, in 25c, 50c and \$1.00 jars. Golden Peacock, Inc., Paris, Tenn. (adv.)

STUDY DIXIE EXPANSION

Capitalistic-Minded Government at Washington Said Big Need.

LITTLE ROCK, Ark., March 23.—

(P)—Delegates from 13 southern states today attailed suggestions of industrial expansion in the south at the first business session of the 29th annual convention of the Southern Commercial Secretaries' Association.

"The south is approaching its greatest period of industrial expansion," William Johnson, Little Rock newspaperman, told the assembly in urging the group to "generate the enthusiasm necessary to assure complete industrial advancement."

Dr. Gus W. Dyer, of Vanderbilt University, declared that the most effective way to entice industry from the north and east is to elect state officials and representatives at Washington "who are friendly to the capitalistic system under which the American nation made its great progress."

There are several prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudices which southerners must break down if they are to have industrial expansion, and "the most serious is the prejudice which are friendly non the following in the north industrial expansion," All the senat

"was wholly incapable of understanding the nature of a marriage contract or of the obligations thereby assumed," and added he "did not have sufficient capacity to marry."

The government alleged Mrs. Barnett got \$550,000 of the Indian's fortune, and her attorney, Harold C. McGugin received \$150,000.

Mrs. Barnett, 35, when the marriage took place, contended she was a "dutiful wife" and that the government's attack was an infringement of her constitutional rights.

Other Cases May Follow Involving Defendants on

TAMPA, Fla., March 23 .- (P)hree of the 11 men charged with having roles in Tampa's much-protested triple flogging case go on trial

They are C. A. Brown, John R. Bridges and C. W. Carliale, all former city policemen. The eight others are suspended Police Chief R. G. Tittsworth, his secretary, former policemen, special officers and ex-city employes.

The 11 are charged with being principals or accessories in the kidnaping, tarring, feathering and flogging of three unemployed organizers and political workers last November 30. Joseph Shoemaker died nine days after he was mistreated by a masked band. His two companions, E. F. Poulnot and S. D. Rogers, recovered from serious injuries.

Tomorrow's trial—in which Brown. Bridges and Carlisle are to be tried on charges of kidnaping Poulnot—is expected to be followed by others involving all of the various ether defendants on charges of second degree murder of Shoemaker, the kidnaping of all three men and being accessory to these crimes after the fact.

Criminal Court Judge Robert T. Dewell, of Haines City, Fla., will preside at the trials, defense attorneys having prevailed upon Resident Judge W. Raleigh Petteway to disqualify himself because he is a candidate for the democratic nomination for governor of Florida.

EAST LAKE CLUB AGAIN SELECTED FOR QUALIFYING

May 11 Set for Open; Amateur Slated for August 25.

By Roy White.

East Lake Country Club, with one of the toughest courses in the south-ern states, has again been designated for the sectional qualifying rounds for both the national open and national amateur tournaments.

The open qualifying will be held on Monday, May 11, with the championship scheduled for the Baltusrol Golf Club, at Short Hills, N. J., on June 4, 5 and 6.

Entries for the open will close at midnight April 28, at which time every entry must be either in the office of the United States Golf Association, East Forty-second street, New k, or in the mails.

AMATEUR ROUNDS.

The amateur qualifying rounds will be played on August 25, with the championship matches scheduled for the Garden City Golf Club course Sep-tember 14-19.

Entries for the amateur must be filed in the U. S. G. A. office or in the mails by August 12.

The public links championship tournament will be played on the Bethpage State Park course, at Farmingdale, N. Y., on July 20-25.

The women's championship will be played on the Canoe Brook Country Club course, Summit, N. J., September 28-October 3, and the entries must be in by September 12 and September 5 for players whose handicaps have not been cleared by the sectional associa-tion and who submit attested cards to the secretary of the women's com-

INTERNATIONAL MATCHES. In the international matches, the Curtis cup, will be contested for on May 6 on the Gleneagles, Scotland, course, with the Walker cup matches scheduled for the Pine Valley Golt Club course at Clementon, N. J., on September 2-3.

It will depend entirely on the condition of the courses on which the qualifying rounds will be played at East Lake. In the past a majority of the eliminations have been played over the No. 1 course and judging from its condition at present, both 36-hole rounds will be played there again this year.

ONLY TWO ENTRIES.

Only two entries will be named from this section in the open tournament, while four entries are most likely to be named for the amateur. Of course the nominations will depend entirely on the total number of entries from

THE CANDY KID.

Most of the golfing world agrees that Henry Picard, The Candy Kid from Hershey, Pa., has the best game of all the touring professionals.

He lacks a little in temperament. They believe when he gets all that smoothed out he will dominate the field. He has a thorough game. He is strong with his woods, irons and his putter. His game hasn't a weakness. It is his temperament, which is likely to boil over, which breaks down that game.

Just now he is one of the favorites to win the Masters at Augusta that first week in April.

MISS DOROTHY KIRBY.

Miss Dorothy Kirby, the young schoolgirl from Atlanta, had an 88 in the qualifying round at Augusta yesterday in the annual Invitation tournament.

She was, for illustration, one stroke under Miss Jean Bauer, the Diana of the Fairways, who has been competing in Florida in the winter tournament schedule. She was well up near the medalist. And that country club course is a most severe test.

Miss Kirby has not, of course, played much golf this spring. The weather hasn't permitted, for one thing, and for another she wisely considers an education to be important enough to remain in school and get it.

She is but 16 years old and has a swing which is practically flawless. It is quite possible when she is 18 or 20 she will be a national figure in golf.

She can hardly expect to win at Augusta, the field being what it is and her golf having been neglected during the spring. But she will receive invaluable experience. Howard Beckett, who taught her her game, wisely counsels three or four good tournaments a year for her until she has completed her school-

PAUL AGREES.

PAUL EN ROUTE.

Rickey revealed he had talked with "Daffy" by telephone in Dallas, Texas, and that he agreed to salary terms. He said Paul would fly to Bradenton, and would sign his contract upon arrival.

"Dizzy," who does practically all the talking for "me and Paul," freely predicted the Cards will win the National league for the last two years, winning 28 and losing 12 in 1935 and collecting 30 victories against but seven defeats in 1934.

"T'm going to be out there working every day," said, the elder Dean, "and give the Cards everything I have both on and off the field."

Amazing Putout Netted Peck \$200 and Valuable Player Award in Carolina League.

GULFPORT, Miss., March 23 .- This is the story of the greatest catch ever made in the Eastern Carolina league. It won a pennant and a handsome reward for our hero.

The date was September 14, 1928. Goldsboro's Gold Bugs and the Wilmington Pirates were engaged in the championship series at Wilmington. Goldsboro, the visiting team, got the first run in the eighth

on an error which allowed a runner to score.

The game had been tense, hard-lought and scoreless, of course, up to this point. The home town fans were sitting silently, praying for something to happen.

Rentrop declared he would file a formal protest against Shikat for his non-appearance with the national wrestling as-sociation.

Ferald McQuaig, Injured Player, Will Soon Rejoin Squad.

By Jack Troy.

GULFPORT, Miss., March 23 .-Sheriff Dave Harris' ineffectiveness at the plate is beginning to assume paramount importance as the champion Crackers near the finish of their spring training camp.

Harris reported late and consequently was behind the other regulars, but he has had time to show something now. And yet he is not hitting the ball.

He hits hard sometimes in batting practice, but in the four exhibition games to date, he has come through with only two hits, a single and a double. He went hitless in two of the games. He did not, however, play the full games.

It is very important to the Cracker cause that Harris begin to show some prowess at the plate, because there is no question that Big Joe Hutcheson, regular right fielder, is not going to be in the lineup for some time.

Spring latting does not count in the records, of course, but it is always gratifying to see the outfielders belting the ball anyway. It removes those little questions.

BROWNE LOOKS GOOD.

those little questions.

BROWNE LOOKS GOOD.

Al Browne, who is playing right in place of Hutcheson and will start the season, has been doing some excellent work, both afield and at bat. Browne hits and throws left-handed. The Crackers were indeed fortunate in having him in reserve.

The Crackers, who meet the Kansas City Blues tomorrow in the first game of the two-game series here, were greeted by another cool, windy day, with no sun today.

Mobile, a two-hour drive away, and New Orleans, an hour and a half drive, have had excellent weather most of the spring, but the Crackers have not. They have had cool, windy weather most of time. And it has slowed progress somewhat.

JIM LINDSEY.

Big Jim Lindsey is going to make his first start of the season against the Blues tomorrow. Manager Eddie Moore is planning to let Lindsey go five innings. Almon Williams will work the other four.

Bobby Durham and Bill Schmidt will divide the hurling assignment in the final game Wednesday.

Luther (Bud) Thomas, who was very effective in the second game with the Blues Sunday at Mobile, is scheduled to face the New York Giants Friday, which is the final day of camp.

Gerald McQuaig, who was beaned by a fast ball in the Southern Paper Company-Yannigan game Sunday, has amazed doctors with his rapid recovery.

amazed doctors with his tapa.

McQuaig, who caught a fast ball on the lower part of his left temple, had a slight headache because of the fact he did not wear his glasses for a few hours. But when he put on glasses again the headache disappeared.

He did not work out today, but neither did he stay in bed. Doctors said it was all right for him to be up. Had the pitch caught McQuaig a fraction higher, they said, it probably would have resulted in serious complications.

At any rate, the bean ball he did catch would have caused a more serious injury had it not been for the development of his facial muscles, the doctors said.

One of the first things McQuaig

One of the first things McQuaig said was this:

"I have one thing in particular to thank Coach Lake Russell, of Mercer, for. When I was in school he made us practice the bridge."

This is a football exercise, such as some wrestlers use, and is great for strengthening the neck and face muscles. McQuaig, the doctors said, has a fine set of muscles over his temples.

McQuaig should be able to rejoin the squad in a few cays. All the swelling has gone down in his face, except for a lump that has appeared along his jawbone. He is well on the

along his jawbone. He is well on the way to recovery.

He said he was very thankful for his narrow escape and wanted to be back to practice as soon as possible.

ROOKIES LEAVE.

Six of the seven rookies cut from the squad Saturday left camp today. They were Chicken Prince and Wayne Black, infielders; Bill Casey, catcher; Wilbur Cook and Charles Schaaf, pitchefs. All save Casey will go with Columbia, in the Sally league. Casey is returning home, which is Ozark, Alabama.

Joel Tierce, the former Jacket. leaves camp in the morning. He will return to Atlanta for a short time and then will be placed with a good club in the Piedmont league.

Both Mann and Moore like the prospects of Tierce, and they expect to see him on the Atlanta club within two years at the outside.

Barons Count on Georgian

Joseph Edmund "Pot" Sims, a graduate of Gordon College, is being counted upon as one of the Baron mainstays this year. The Georgia boy has hurled on three pennant winning clubs since he broke into professional baseball in 1932. Maybe he can raise the Barons from the second division.

By Ralph McGill. That's quite a holler from the boys up in the hollers of the north Georgia mountains.

"How about some news of Pot Sims?" ask the boys from the laurelshaded coves above Canton and Jasper.

It seems that Joseph Edmund (Pot) Sims is a Georgia boy who has been doing pitching chores for a number of ball clubs and his home state hasn't got around to including him in the list of successes. "Us mountain boys would appreciate some news of him," is the latest holler from the hollers.

(Pot) Sims is a Georgia boy. He's with the Birmingham club this season, on option from the Cardinals. He hasn't done much work over in Birmingham because his arm has been too sore to throw. But he likes it over there and wants to pitch in a hot town. He's in one. When the July sun begins to bear down Birmingham is hotter than a top-floor apartment.

Pot Sims graduated from Gordon
College at Barnesville. He was snapped up by the Cardinals and sent to Greensboro in 1932. Greensboro won a flag that year. The next season he was with Houston and Houston won the pennant. The following season saw him throwing for Columbus son saw him throwing for Columbus in the American association. And Co-lumbus won the pennant. Woodside-Miller Wedding Plans Delphian Society Changed in 'Twinkling of an Eye'

WHEN Margaret Woodside became Mrs. J. B. Hamner Miller in Tallahassee last Saturday, plans for her marriage, which was to have been solemnized on May 1, were disrupted with a bang. For Margaret and Hamner had planned to announce their engagement on Easter and plight their troth on the 1st of May. But when Margaret, accompanied by her brother, Jack, and her grandmother, Mrs. John J. Woodside, motored to Tallahassee last week to visit Mrs. F. W. Miller, Hamner's mother, the engaged couple decided to marry the following day, and the original plans were changed in the "twinkling of an eye."

Mrs. Woodside took Margaret to a fashionable clothes salon, and they selected the lovely white chiffon wedding gown which she wore in the ceremony that evening. A becoming white picture hat added the finishing touch to her exquisite costume. When Mr. and Mrs. Frank Moor, close friends of the Millers, heard that the wedding was

to take place, they insisted that Margaret and Hamner marry in the garden of their handsome estate in Los Robles. So Hamner and Margaret had an impromptu "al fresco" wedding in a setting of colorful azaleas, dogwood and other flowers prevalent in the Florida clime. Despite the brief notice, Mr. and Mrs. Moor arranged all the details in an excellent manner, even to a seated dinner for 12 following the cereand an exquisite heartshaped wedding cake, topped with an elaborate bridal bouquet.

Margaret's engagement ring is an exquisite square-cut diamond upon a platinum background, and she has been wearing it for over a month. Hamner had great difficulty in finding a wedding ring, for he had such short notice, and Margaret's finger is so very small and slender. He finally succeeded in finding a size 4 ring, which would stay on for the service, at least, so he bought it. The furnishings in the apartment in which they will live in Tallahassee are the gift of his mother. It is furnished in modernistic style and is a masterpiece of decorative art. The bride and groom will arrive here on Friday, and will remain for several days, during which time they will be honor guests at several social affairs.

Miss Terry Becomes Bride of Mr. Miller At Home Ceremony

Of interest to a wide circle of friends was the marriage of Miss Sara Frances Terry and Frank James Mill-er Jr., of Augusta, which was solem-nized Friday evening at the home of Mr. and Mrs. Aldine Terry, on York-shira road.

Dr. A. Julian Warner, pastor of the Capitol View Presbyterian church, performed the ceremony in the presence of a gathering of relatives and friends. Before the ceremony Paul Benson sang "I Love You Truly," accompanied by Forrest Perrin, who played the wedding march from "Lohengren" as the bridal party entered.

An effective arrangement of palms and ferns formed a background for the baskets of calla lilies and valley lilies. Candelbras holding seven light-ed tapers added to the beauty of the

scene.

The bride's sister, Miss Ruby Terry, was maid of honor, costumed in a gray crepe with navy blue accessories. Her flowers were yellow roses and valley lilies.

The bride was given in marriage by her brother, Aldine Terry. Her titian beauty was enhanced by her powder blue coat suit with which she wore a gray chiffon and lace blouse, with navy blue accessories. She wore orchids and valley lilies. The groom's father, Frank Miller Sr., acted as best man.

Mrs. Cora Terry, the bride's mother, wore a costume of navy blue and a cluster of roses and sweet peas. Mrs. Frank Miller Sr., the groom's mother, was costumed in black triple sheer with rhinestone buttons, and

sheer with rhinestone buttons, and a cluster of gardenias.

Following the ceremony an informal reception was held. Spring flowers were used for decorations, and in the dining room the beautifully appointed table held in the center a three-tiered wedding cake, elaborately embossed with roses and topped with a miniature bride and groom.

The bride and groom left for a wedding trip to Florida. Upon their return they will reside in Augusta at 1104 Adrian street, until their home now being constructed on Henry street is completed.

Friendly Counsel

By CAROLINE CHATFIELD.

DEAR MISS CHATFIELD:

My father died when I was quite young and as far back as I can remember I was working to help my mother feed nine children. I worked in the daytime and went to night school with the money I earned. Mother didn't allow me to have friends, boys or girls, until I was 19 years old. I got married and though my husband made a small salary I always helped mother and most of what I gave her went to a favorite daughter's child who is old enough to work but doesn't. Mind you we have children, too. My husband works like a dog while my sister's husband loafs and spends what mother gives him. Mother is ill now and expects us to take turns sitting up with her day and night. My husband says I have done enough and he wants me to let the others take care of her since I am not strong and am often sick myself. Please tell me what I ought to do.

CINDERELLA. DEAR MISS CHATFIELD:

Your husband is exactly right. Here is a fine opportunity for a lazy, loafing son-in-law, his wife and his fine Mr. and Mrs James L. Dickey and Miss Elizabeth Spalding have returned from St. Simon's Island, where they spent several days at Mr. and Mrs. Dickey's new home.

Mrs. Sims Bray and her father, James R. Mobley, have returned from Savannah, where they visited Mr. and Mrs. Raymond Demere.

Mrs. Cam Dorsey has returned home from Savannah, where she visited her parents, Judge and Mrs. Samuel Adams.

nursing the invalid.

A friend of mine often remarks that every woman has a long period of opportunity to make good with her children and when those opportunities have passed there is nothing more she can do. In the beginning the child is at the mercy of the mother. In the end the mother is at the mercy of the child. If the mother makes good with her little ones, her old age is guaranteed against many a heartache and disappointment. If she doesn't the most she can hope for is a dole of pity that any decent young person gives to the old. Good sportsmanship, if nothing else demands that a daughter be kind to her old mother, but even a good daughter is powerless to give the thing which the old and withered heart craves, unless as a child she received from her parent the thing her childish heart craved. It is an inexorable law of life.

My parents have told me to use my own judgment, but I want some advice as to whether or not I should marry her. J. A. A.

ANSWER:

Take your time, young man, and don't make any contracts with a married woman. When she has her divorce decree that will be time enough to talk of matrimony. And one other piece of advice: Don't imagine that you can marry a woman with three children and confine your obligations to mere fatherly interest. They will be eating your bread, drinking your tea and perhaps wearing your clothes. When you take on mams you take on the kids, for better or for worse, just as you take her. And it is pretty definitely certain that it will be for worse if you start out dividing the week into hours that belong to you and hours that belong to them.

Promises from a woman that she will devote evenings and week-ends to her husband, regardless of her children, are likely to be phony. Not that she isn't sincere when she makes them, but that in the nature of the case it won't be practical for her to keep them. You must use your own judgment as to whether or not to marry your lady but you should be sure that it isn't a hasty judgment and see to it that it includes the whole problem: meaning the children.

Governor Winant, of the Social Security Board, and Governor and Mrs. Lawrence Cramer, of the Virgin Islands, came to lunch. Having been to the Virgin Islands, it is interesting to hear of their progress. When I was there the people were so fearful of what the government was going to do, and now they seem so pleased with the results of what has been done.

More people are getting work, wages are a little higher, and as always the case, living standards are going up with more economic security.

Italian Garden Background.

The Italian garden scene, reproduced on the Atlanta Woman's Club stage as a background for the garden expert's lectures and demonstrations, is itself worthy of the time anyone might spent in going to see it. The Italian garden was constructed under the direction of Ernest Gordy, who used some of the most appealing pieces from the wide range of imported garden furniture Company.

The modern garden furniture, imported directly from Italy by the Atlanta furniture concern, is constructed of white metal and clear blue glass, with chairs and benches made more comfortable by cushions covered with a durable rubber cloth, said to be impervious to rain and sun.

Trim and appropriate shrubbery, always an important feature in an Italian garden, or any other type of well-balanced grounds, for that matter, has been supplied the garden school stage scene by the Logansville Nurseries, at Hogansville, Ga. MILITIA RULE SEEN IN OKLAHOMA CITY

Citizens Will Vote Today on Oil Drilling in Town Limits.

OKLAHOMA CITY, Okla., March 23.-(A)-A hint of possible military rule hung over Oklahoma City tonight as the months-long dispute over fur-ther extension of oil drilling zones within the city neared a climax—to-morrow's special election. Governor E. W. Marland said it was "very likely" he would call out national guardsmen if the extension proposal carried.

He did not say whether the troops would be used to halt drilling on state property near the capitol or to protect crews which might be drilling on state land with state perm In either case the basis for his action would be the same. He and other state officials contend that oil wells morth and east of the capitol are "draining" oil from beneath state

The Governor issued a memoran-dum to heads of state departments asking all employes to vote against extension of the drilling zone "that they might assist in protecting the property of the state."

If you are too thin and getting thinner, do something about it, for curves seem to be permanently in favor.

Your underweight may be caused by a finicky appetite which will not let you getenough calories. In such case, exercise is just the spring tonic you need, Exercise is fits the last thing any thin person ever thinks of taking, but don't overlook the fact that improved musculature gives you a healthy appetite. For the person who is underweight, exercise benefits the functioning of the system, to aid digestion and stimulate circulation.

The efficiency of the musculature and the nervous system are closely related, and the weight-gainer will find that "nerves" go with unhealthy thinness, and that a strong nervous system accompanies good muscle tone.

With regard to the figure, it is true that exercise normalizes and develops harmonious proportions, with lovely lines, natural curves and normal weight.

Rational exercise means that the exercise is fitted to the needs of the

according to police, resulted last night in the arrest of three white men and seven young negroes.

The white men gave their names as E. A. Hewett, 24, of 807 South Pryor street and W. D. Meadows, 36, of a Woodland avenue address, both employes of a mattrees factory on Fortress street, and Henry Lingulic, 44, of 239 Peters street, a junk dealer.

They were charged with receiving stolen goods. Hewett and Meadows posted bonds of \$100 each, and Lingulic posted a \$200 bond.

The negroes allegedly took the cotton in small amounts over a period of several weeks, disposing of it for as low as two cents a pound.

Two of the negroes arrested, Leroy Hinesman, 13, and Marion Anthony, 12, were sent to the juvenile detention home. The others were held on charges of disorderly conduct and larcency. They gave their names as Malachi Jones, 16; Stevé Pearson, 17; Welter Jones, 16; L. D. Patillo, 21, and Grady Willis, 17.

born in Pittsburgh, Pa., on a 17th day of September. She is a talented and successful actress. A chart set for her birth data shows the sun in the intellectual sign Virgo, with Mercury, the planet which rules the intellectual sign Virgo, with Meranatural tendency toward artistic expression, bringing her into public notice. She has her sun beautifully aspected by the planet Jupiter, this planet governing wealth and personal expansion, showing success in new things, and with new ideas. The position of the planet Venus in her chart shows that she has a remarkable sense of musical appreciation, indicating that she has developed not only one angle of her artistic gifts, but has developed and cultivated all phases of self-betterment.

The position of the planet Saturn shows that she has initiative, and that she accepts and lives up to life's reaponsibilities. She wants to do things worth while and will accept the responsibility for making them come out right. The position of the planet Mars gives her love of country and a pride in personal appearance. This perhaps explains why it is that she is considered one of the most Virgo people, she often trusts too much those who win her through ther affections, and as a result she is the ther friendship for their own gain. She is stered in those about her affections, and as a result she is often misled by those who use her friendship for their own gain. DIVISION 908—PROFESSIONS.

You possess the faculty of knowing how to make money in different ways and will probably follow more than one method of earning money at the same time. You have good judgment and will likely have occasion frequently to make plans for new enterprises. When you find things moving slowly in any field, you are versatile and will find some way to earn a dollar. Money will come to you primarily through your own enterprise and earning power.

You would find some of the following occupations congenial to you. Writing, journalism, law, music, theatricals, lecturing, teaching, astronomy, forestry.

With your versatile nature and the variety you have in making your choice of an occupation or profession, you should rise to distinct heights of achievement. Should you decide to go into commercial life, it would be well to try and make a connection where you could eventually become a partner in the business, as subordinate positions are not always good for you. You have a chance to work out your own ideas. Through hard work, diligence and application, there is no reason why you should not be distinctly successful.

The members sent for the direction leaflet. They pasted it in their quilt patern scrapbook after they had traced the patterns onto lightweight cardboard. They pasted the newspaper clipping with picture and directions, too. They remembered that no seams were allowed in the patterns. After tracing the pieces on cardboard they cut them out, laid them on the goods and allowed one-quarter inch beyond the pencilled outline they made. Then in piecing they sewed on the pencilled lines. They put the quilt together with white square blocks of the same size, 12 1-2 inches.

by Night ...

as well as by day!

There is no reason why night should deprive you of the enjoyment of your favorite garden spot. The cool hours in the evening are the most delightful, and a simple, inexpensive lighting arrangement enhances the natural beauty of your garden.

For instance, a colored floodlight playing on the spraying water from an ordinary lawn sprinkler adds a charming effect. Or inexpensive metal lilies equipped with lighting fixtures, and scattered among the natural lilies in your pond, will give it the appearance of a spot in fairyland.

There are so many, many ingenious ways in which you can add loveliness to your garden at night. Just call our Home Lighting Service and they will be glad to assist you.

His reply, it was believed, would be a "no" on the present basis of the Locarno program, thus leaving the door open but making it almost materially impossible to negotiate until after the voting Sunday.

It was learned that Sir Eric Phipps, the British ambassador is credited with having much influence with Hitler, personally appealed to the German government to accept the program of the Locarno powers—which includes the bringing in of British and Italian troops to patrol a frontier strip of the Rhineland until peace negotiations have been concluded.

WASHINGTON, March 23 .- (AP)-WASHINGTON, March 23.—(P)—
Chairman Pittman, democrat, Nevada, of the senate foreign relations committee, tonight charged the League of Nations with utter failure to take "sufficient action to enforce its decreès against powerful governments."
Picturing Europe as "waiting and listening" for the shot which will precipitate the most horrible war in history, he asserted at the same time that "to protect our peace" America's neutrality laws must be bulwarked with a navy and air force equal to any.

Sandy went back into the cabin. "Maybe we'll get something in an hour or so." he announced. Buck Wasey was still staring at the teletype, the other special agents peering over his shoulders.

"Lurmack" growled the Texan. "That sounds like a phony name."

"Probably a combination of two or more," answered the inspector. "The identification division is chasing it down. Let me see that report again."

Buck handed it over. Once more Sandy Ross read the brittle account.

MORE ABOUT SCOTLAND.

A friendly letter was written for our part of the paper by an Edinburgh girl, who says: "Dear Uncle Ray: I am 15 years old, and I go to Broughton secondary school, which, of course, I think the best school in Edinburgh. There are 760 pupils, divided into six 'years'—the first year, of boys and girls of 12 and 13, and the sixth year of pupils from 17 to 18. We have 38 teachers, both men and women, who teach us English, mathematics, French, German, science, history, arithmetic, Bible and gymnastics.

It is called a literary society, and every night it is held we have a debate, a dramatic night, a tournament, or a night on which all performers come from a certain 'year.' Last Friday we had a joint debate with another Edinburgh school, with 'Should Scotland Have Home Rule?' as the subject. Have Home Rule? as the subject.

forward for gains of fractions to a point or so.

A small scattering of issues recorded wider gains. Allied Chemical was up 6 1-2 at 199 1-2; Case jumped 6 1-4 to 142 3-4, and Clark Equipment was up 3 1-2 at 46.

Measured by the Associated Press average of 60 stocks the market advanced .7 of a point to 62.6. The average of 30 industrials went shead .7 to 83.1, a new high since 1930.

Transactions to taled 1,708.550 shares against 1,896,930 on Friday. Turnover was the smallest since January 21 and tended to somewhat dampen bullish ardor.

U. S. Steel was up 1 1-8 at 64 3-4 and Bethlehem rose 1 1-2 to 56 5-8 in spite of the fall in current steel operations, reported by the American Iron & Steel Institute at 53 per cent of capacity this week compared with 60 per cent a week ago.

Issues fractions to a point or so higher were American Telephone at 161 1-2, Certain-teed at 18 2-8, Electric Boat at 15 1-4, Chrysler at 96, Hat Corporation at 14 7-8, Simmons at 29 3-8, and Worthington Pump at 34 3-8. International Cement gained 2 at 48 1-2, and Penn-Dixie more than a point at 9 5-8.

A decline of .02 of a cent in the Italian lira to 7.97 cents, a new 1936 low, was seen as reflecting unrest over Mussolini's statement on war and the nationalization of Italian industry. The French franc and the pound sterling were steady.

The following is a brief outline of part of the information contained in the Offering Prospectus and the Registration Statement (including the exhibits thereto and the financial statements filed therewith), which also include important information not outlined or indicated herein, and to which reference is made. The offer of these Bonds is made only by means of the Offering Prospectus, which should be read prior to any purchase of these Bonds.

THE COMPANY: Pacific Gas and Electric Company (a California Corporation organized October 10, 1905) and its subsidiaries are principally engaged in the production of electric energy, the purchase of natural gas, and the transmission, distribution and sale of electric energy and natural gas throughout a large part of Northern and Central California, including the principal cities therein. The franchises (constitutional, municipal and county) and certain litigation with respect thereto are described in the Offering Prospectus to which reference is made. The electric properties include 47 hydroelectric generating plants and 10 steam electric generating plants having a sotal installed rated capacity of 1,637,525 horsepower, and approximately 6,000 miles of transmission lines and 29,900 miles of distribution lines. Some of the hydro-electric generating plants and parts of the works appurtenant of the hydro-electric generating plants and parts of the works appurtenant to most of the hydro-electric generating plants are located on United States Government lands under permits or licenses. The gas properties include about 640 miles of transmission lines (including a pipe line from natural gas-fields about 200 miles south of San Francisco to various points in the distri-bution system), about 6,800 miles of distribution lines and 15 artificial gas-plants, most of which are used as stand-by plants. The Company and its subsidiaries intend to continue their present business except that the Com-pany intends to dissolve and take over the business of certain subsidiaries.

First Preferred Stock, Cumulative, 51/4%, Par value \$25 28,732,575
(Authorized 1,600,000 shares, outstanding 1,149,303 shares) The Company has agreed with a subsidiary to pay the interest on \$12,000,000 bonds of which \$11,000,000 are included in this table under Bonds of subsidiary companies, and \$1,000,000 are held in the treasury of the Company or pledged under an underlying mortgage and not included in this table.

PURPOSE OF ISSUE: The estimated net proceeds to the Company from the sale of the Series H Bonds will be \$90,033,677.50 (exclusive of accrued interest, but after deducting estimated expenses in connection with such sale). Such net proceeds will be applied to the redemption on June 1, 1936, of \$34,975,000 First and Refunding Mortgage Gold Bonds, Series E, 4½%, due June 1, 1957, at 105% and interest, \$49,610,000 First and Refunding Mortgage Gold Bonds, Series F, 4½%, due June 1, 1960, at 105% and interest, and \$3,694,000 Northern California Power Company, Consolidated, Refunding and Consolidating Mortgage Five Per Cent. Sinking Fund Forty-Year Gold Bonds, due December 1, 1948, at 110% and interest, (which latter are included in Underlying Bonds in the table of Capitalization). The additional amount required for such redemptions (principal, premium and interest) is estimated to be \$4,839,485 and will be obtained from treasury funds.

consolidated Earnings: From the Financial Statements filed with the Registration Statement it appears that for the years 1933, 1934, and 1935 consolidated gross income, including certain gas revenues in dispute, after deduction of all operating expenses and provision for depreciation but before Federal Income tax, was respectively 2.21, 2.34, and 2.61 times the aggregate of all interest charges, amortization of bond discount and expense, and dividends on preferred stocks of subsidiaries held by the public and that, excluding the computed amounts of such gas revenues in dispute, such consolidated gross income was respectively 2.16, 2.22, and 2.46 times such charges, amortization and dividends.

SERIES H BONDS: The Series H Bonds, which are authorized but unissued, will be issued under the First and Refunding Mortgage of the Company and Mt. Shasta Power Corporation. The latter is in process of dissolution and has transferred its properties to the Company. The Mortgage is, in the opinion of counsel for the Company, a first lien on the properties so transferred (net depreciated value on books of Company about 334,000,000) and a junior lien on substantially all other properties of the Company and on the capital stocks of certain of its subsidiaries, subject to the liens so far as they attach, of mortgages securing various issues of underlying bonds of which 348,712,000 were outstanding in the hands of the public on December 31, 1935.

\$198,882,000 First and Refunding Mortgage Bonds of other series were outstanding on December 31, 1935. The Mortgage permits the issuance of additional First and Refunding Mortgage Bonds of Series H or other series for various purposes, provided that the aggregate amount outstanding and reserved shall not exceed \$500,000,000 unless and until the authorized bonded indebtedness of the Company is increased in accordance with law. All series of First and Refunding Mortgage Bonds are equally secured by the lien of the Mortgage.

The Mortgage permits, without notice to the Bondholders, the release, under certain conditions, of properties covered thereby, including the capital stocks of subsidiaries pledged thereunder, if the properties of such subsidiaries are conveyed to the Company and subjected to the lien of the Mortgage.

The Mortgage permits of the company and subjected to the lien of the Mortgage. and has transferred its ; perties to the Company. The Mort-

The Mortgage provides for semi-annual sinking fund payments in substance amounting to 1/2% of the bonded indebtedness of the Company (as defined in the Mortgage) less certain credits, chiefly payments made for sinking funds of underlying mortgages. The total sinking fund payment in 1933 was \$199,983, in 1934 no payment was required or made, and in 1935 such payment was \$735,525. Sinking fund moneys are applied to the purchase or redemption of First and Refunding Mortgage Bonds of such series as may be directed by the Company. The Mortgage also provides that under certain circumstances the Company shall make certain payments to a General Reserve Fund, which may be applied to various purposes, including the purchase of First and Refunding Mortgage Bonds. No payments have ever been made into the General Reserve Fund.

OTHER INFORMATION: Other information concerning the Company set forth in the Registration Statement and Offering Prospectus includes, among other things, statements concerning Boulder Dam, the Central Valley Project, competition of public agencies including certain pending or threatened condemnation proceedings, the Hetch-Hetchy power project and the plan for the purchase by San Francisco of part of the distribution system in that City, earthquakes, foreign currency bonds, the Federal Public Utility Act, and the proposed dissolution of certain subsidiaries.

UNDERWRITING: Subject to approval of counsel and to certain other terms and conditions, the Underwriters named in the Offering Prospectus have severally agreed to purchase the Series H Bonds from the Company, for delivery and payment on or about March 31, 1936, at 1003% or a total of \$90,450,000, plus accrued interest. Such Bonds are to be offered to the public at 1023%, or a total of \$92,250,000, plus accrued interest. The underwriting discounts are 2% or a total of \$1,800,000.

Offering Price: 1021/2% and accrued interest

Further information, in particular financial statements, is contained in the Registration Statement on file with the Commission, and in the Offering Prospectus which must be furnished to each purchaser and is obtainable only from such of the undersigned as are registered dealers in securities in this State.

It was obvious to Tarzan that only by swimming could he reach the Leopard Men's holy of holies. He looked down into the water, knowing well enough what he would see there great forms bulking above the water monstrous, sharp-fanged crocodiles! . . .

. . . The canoes of the Leopard Men guards

scraped the narrow strand that surrounded the temple. Old Timer was jerked ashore. While he stood encircled by his taloned captors, Bobolo hastened inside the hideous, gloomy temple and approached Lulimi, Supreme Chieftain.

By Edgar Rice Burroughs

"Have Jahla's warriors returned with the white giant and his companion?" Lulimi demanded. "No!" Bobolo replied, bowing slavishly; "Jahla has failed. The captives escaped. But the chil-dren of the Leopard God shall eat. Bobolo has brought a white man for the feast?"

teconomic loss to individuals and corporations. On the other hand, it is pointed out, some corporations and individuals will profit through business received through rehabilitation. The profits so obtained cannot offset the losses. Therefore, some of the more conservative traders feel the stock market has not yet fully reacted to the flood situation. These observers would not be surprised if a sharp reaction downward came soon. These same men believe that tenure of the gold bloc is nearing the end—that within a few weeks the gold currencies of Europe will be on a revalued basis. Such revaluation in dollar terms would be tantamount to increasing the gold content of the dollar, a move, so the dollar experts say, that would tend to force down commodity prices here.

The Locarno situation has not been clarified to the satisfaction of Wall Street.

Street.

On the more cheerful side is the old saw that the market now is undercontrol of the investor type—that the holders of stocks will not sell because they do not know where to reinvest their funds. And in addition, business, despite the flood, hasn't been particularly bad. Retail trade has picked up and greater gains are predicted. Utilities are reported in the market for new equipment in many instances. Building is picking up as the weather improves.

Charles M. Cooper, convicted twice of the murder of James T. Chappell in 1932, will be resentenced to death Thursday or Friday in Fulton superior court.

The supreme court recently upheld the superior court in finding Cooper guilty of shooting Chappell in a hold-up on West Peachtree street November 4, 1932. After hearing the eath sentence pronounced upon him once. Cooper succeeded in obtaining a new trial on the grounds he had received additional support of his alibit that he was in Florida at the time of the Chappell killing. The second trial resulted in a conviction also, and that decision was appealed to the supreme court.

The Alabama supreme court ruled Monday that the legislature could not delegate to the people at a referendum the power to enact revenue laws, but that it could authorize the voters to enact laws repealing the state's 20-year-old prohibition statutes. By unanimous decision, the court held in the revenue law case, that this would be an invalid delegation of the

Thousands, However, Continue Six-Year Fight for Garrett Fortune.

PHILADELPHIA, March 23.—(A)
The complicated legal fight over the \$17,000,000 fortune Walter Garrett founded on snuff in the 19th century, was simplified somewhat today in a state supreme court ruling barring his kin from laying any claim to the estate.

The Mississippi senate voted down, 28 to 13, a motion to reconsider a bill proposing shift of the collection of gasoline taxes from the state auditor's office to a new state agency, headed by an appointive commissioner, and the measure now goes to the house

These changes fearlessly inaugurated at Rollins are bearing fruit. They are being watched by educators and laymen. The fact that in some respects they break away from some of the old acedemic moorings should not startle us. In education, as in politics and economics and social renot startle us. In education, as in politics and economics and social relationships, we hold fast to the old ideals and all we change is our method of approach to the attainment of the ideals. Stagnation follows standing still. Continued growth is the only evidence of life. ics and social re-

In a remarkable film on the life of Louis Pasteur, which I saw the other night, the great English chemist, Lister, said to Pasteur when the latter was being denounced as a charlatan and an imposter by leading doctors of the French Academy of Medicine, "Ww deer Pasteur, every great henan imposter by leading of Medicine, the French Academy of Medicine, "My dear Pasteur, every great ben-efit to the human race in every field of its activity has been bitterly fought in every stage leading up to its final acceptance."

What has taken place at Rollins allustrates what I speak of as new approaches to old problems. If you abolish lectures and recitations and substitute the conference plan of study, you do not abandon the old ideals of culture. An amazing in-crease in the very number of things which an educated man must know which an educated man must know today calls not only for more facts but calls also for what might be called a third dimension in education—the tying together of all the subjects and all the facts into the relationship of their whole with modern life.

Just as you and, indeed, the fac-ulty and the students in any college reach conclusions individually and collectively, so do the masses of our people individually and collectively approach governmental problems. All of us are greatly influenced by group association. The family group is the

The development of national understanding as opposed to purely individual or local groups domination is growing by leaps and bounds throughout our nation. It is the logical development of broader and better education and it is the logical development of the extension of what I sometimes call the policy of the good neighbor. The good neighbor is not sometimes call the policy of the good neighbor. The good neighbor is not just the man who lives next door to you. The objective includes the rela-

VISITORS' OPINIONS DIFFER ON TAXES

First of all your duty and mine is to the nation. If we perform that duty well—you and I—the policy of the good neighbor will in the long run assert itself so strongly, so vic-toriously, that it will spread to other peoples and nations throughout the world. The ideal is there—developed to a greater or less extent among the masses of the people in every nation.
We of the western hemisphere are working together to prove the practical value of this great ideal of peace and justice among men and among nations.

The fact of this group existence and resulting group thinking brings forward one of the great problems of orderly government functioning.

It is the problem of government to harmonize the interests of these groups which are so often divergent and opposing, in order to guarantee security and good for as many of their individual members as may be their individual members as may be harmonize the interests of these groups which are so often divergent and opposing, in order to guarantee security and good for as many of their individual members as may be possible. The science of politics, indeed, may properly be said to be in large part the science of politics, indeed, may properly be said to be in large part the science of the adjustment of conflicting group interests. In the community, local government must adjust small groups for community good. In states larger groups must be co-ordinated for the greater good of all the people within the state. In the federal government, the problem is to adjust still greater groups in the interest of the largest group of all—125,000,000 people in whom reposes the sovereignty of the United States of America. But

largest group of all—125,000,000 peo-ple in whom reposes the sovereignty of the United States of America. But it is well to remember that the in-dividual citizen contributes most greatly to the good of this largest group only when he or she thinks in terms of the largest group.
